

ADMISSIONS

EXPERIENCE THE *Yuma Christian Academy* DIFFERENCE

Admission Process

Thank you for your interest in Yuma Christian Academy (YCA).

First Step – “I’m Interested”

1. Receive a complimentary educational consultation with our Principal. The purpose of the educational consultation is to help determine the academic, social, and spiritual needs of your child.
2. At this time you also will be given a personal tour of the building and classrooms and be given an Application Packet with information and forms to apply for acceptance.
3. Parents and students who want to know and experience more may come to our school to experience “The Yuma Christian Academy Difference” via shadowing, observation, or attending school activities. To make arrangements contact the office at 928-726-2113 or email office@yumachristianacademy.com.

Second Step – “How Do I Apply?”

Completing the Application Packet is the next step in the process of being considered for enrollment to YCA. The application forms can be obtained in the office and returned to the office.

Third Step - "I Need More Information about Scholarship Money Available For Families"

YCA offers a variety of financial solutions including Family Discounts, Scholarships, and Variable Tuition (need-based tuition options). Information regarding these options can be found in the Application Packet or you may contact our office to schedule a meeting with our Account Manager for more information.

Fourth Step – “Did I Get Accepted?”

1. After reviewing your application, it will be determined if your child will benefit from enrolling at YCA. If a student has not yet met the Principal then a “get acquainted” meeting is scheduled. Students in grades 7 – 12th must also complete an admissions interview (a more in-depth oral questionnaire with the Principal).
2. Usually at this time, the Principal will notify you if your child(ren) has been accepted to YCA and you will be offered an Enrollment Packet. A non-refundable enrollment fee is required at the time of enrollment.
3. Complete and submit one Enrollment Packet per child and return them to the office with applicable enrollment fees to ensure placement and the ordering of your child(ren)’s curriculum.
4. Final arrangements for tuition payments are made at this time with the Account Manager.

Final Steps

1. Schedule a testing date for your child(ren) with the office.
2. Mark your calendars for other upcoming required activities such as Parent Orientation/Training, important Scholarship Application dates, and your child(ren)’s first day of school.
3. Purchase uniforms and school supplies.

NOTE: Because space is limited, it is very important that you complete the Admissions Process as soon as possible. Completion of an application does not guarantee admission to YCA.
